IMMEDIATE ACTION

- It is advised to be watchful of Landslides, Slope failures. Rock falls and Ground Subsidence in high vulnerable zones (encircled) in map, avoid unnecessary travel.
- PDMAs, Rescue Services, Armed Forces and leading NGOs / CSOs to ensure availability of personnel / equipment in the indicated areas and be on stand-by for rapid response in case of any forecasted adverse weather systems

Landslide Vulnerable Zones

- With the westerlies arrival, moderate to heavy precipitation is expected around the country and will continue until 05 Feb, 2024.
- As the rain may persist for few days, localized landslides may occur in very high to moderate risk zones (highly elevated areas).
- It is advised to be watchful of Landslides, Slope failures, Rock falls and Ground Subsidence in high vulnerable zones (encircled) in map, avoid unnecessary travel.
- Stay updated on weather and roads conditions, through official channels and local news.
