NDMA Conducts National Simulation Exercise on Flood & GLOF Preparedness

20-05-2025

Pak NDMA held a two-day simulation exercise to enhance disaster preparedness for floods & Glacial Lake Outburst Floods (GLOF). Federal Minister for Climate Change Musadik Malik lauded the initiative, highlighting the need for integrated climate resilience strategies.

The event brought together government, military & humanitarian partners to test early warning systems, risk communication, evacuation protocols & emergency response. NDMA also hosted a Monsoon Coordination Conference to assess seasonal readiness.

CISE 3/2025 | Global Preparedness in Action

22-05-2025

NDMA successfully conducted the 3rd Comprehensive International Simulation Exercise (CISE 3/2025), simulating a monsoon flood contingency scenario.

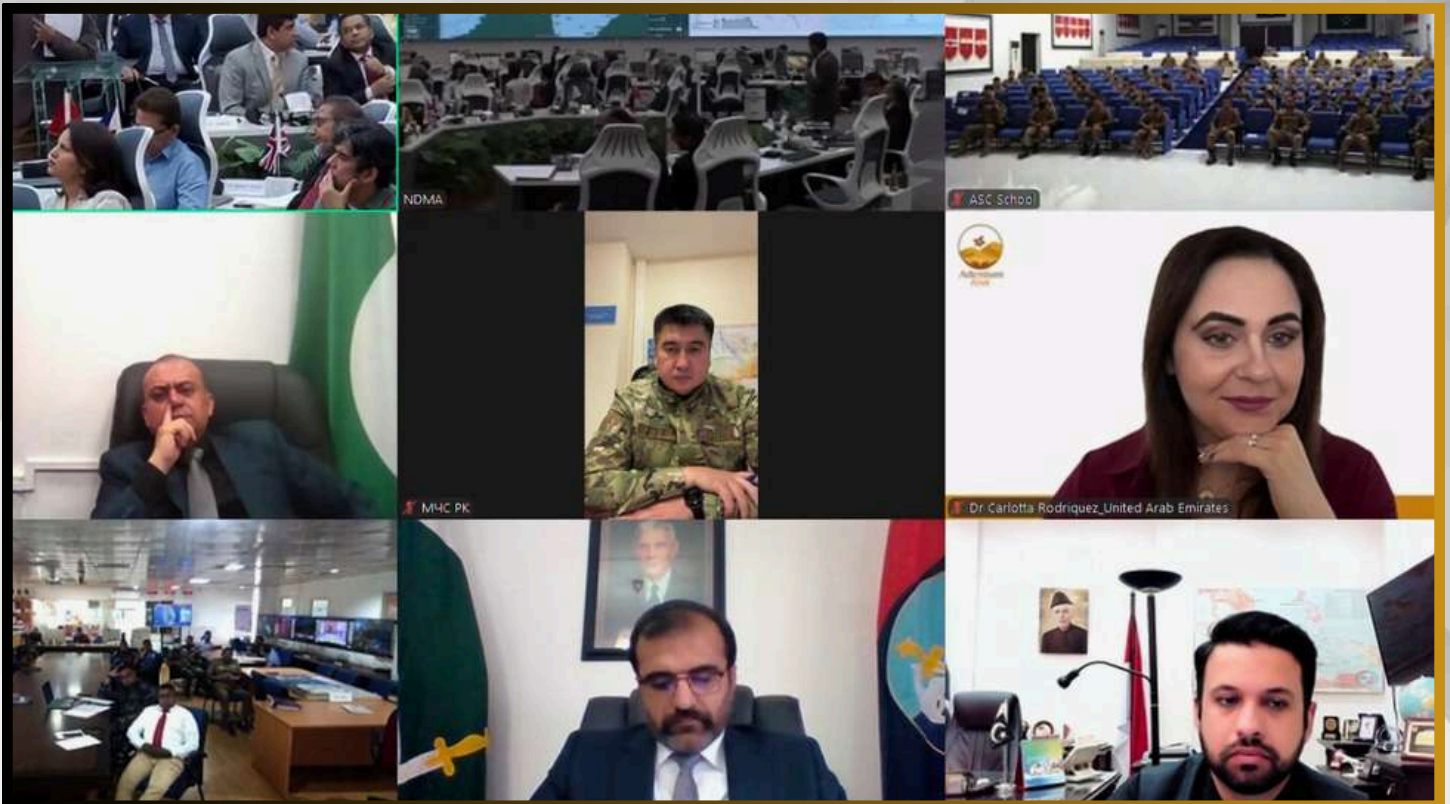

Countries from South Asia, the Gulf, and beyond – including Sri Lanka, Malaysia, Indonesia, Kazakhstan, China, Nepal, Oman, UAE, Maldives, UK, ADB, Mauritius, Bangladesh, Singapore, and the Philippines – actively participated alongside all NDMA wings.

The exercise fostered mutual learning, shared best practices, and reinforced our commitment to proactive, collaborative disaster response.

NDMA Convenes National DMCF Meeting in Islamabad

29-05-2025

A high-level meeting of the Disaster Management Coordination Forum (DMCF) was held today at National Disaster Management Authority (NDMA) headquarters in Islamabad under the chairmanship of Lt. General Inam Haider Malik, HI (M) Chairman NDMA. The session brought together heads of Provincial Disaster Management Authorities including State of AJ&K and Gilgit Baltistan Disaster Management Authorities, as well as Senior Management of NDMA. Aim of the Forum is to strengthen coordination between the federation and provinces & to provide strategic guidance, oversee & monitor disaster management activities / interventions at national and provincial level.

The forum held an in-depth discussion on critical operational gaps, coordination mechanisms, and resource needs at National and Provincial level. Participants exchanged experiences and highlighted common challenges in preparedness, response, and anticipatory action.

The meeting concluded on a positive note with clear directions issued on various aspects of disaster management for improving collaboration, enhancing data sharing, and streamlining joint planning processes to tackle upcoming disasters.

NDMA remains committed to reinforcing a unified national disaster risk management framework through regular engagement with provincial counterparts under important platform like the DMCF.

The Governor Khyber Pakhtunkhwa, visited NEOC at NDMA Headquarters

30-05-2025

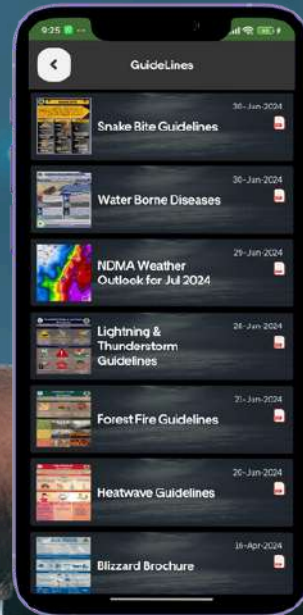

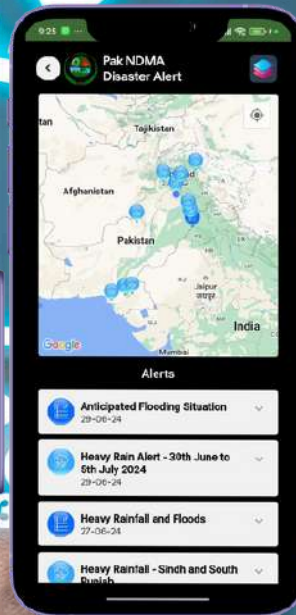

Chairman NDMA welcomed the honourable guest and delivered a comprehensive briefing on Pakistan's climate vulnerability landscape highlighting a range of threats including heatwaves, GLOF events, earthquakes, floods, droughts and growing water scarcity. He emphasized the pivotal role of the NEOC as a national coordination hub and encouraged the adoption of similar models at the provincial level.

Representatives from NDMA's Wings provided detailed briefings, further strengthening the understanding of Pakistan's preparedness framework and the impact-based outlook for the next three months, particularly in relation to the upcoming Monsoon season.

Governor Faisal Karim Kundi commended National Emergencies Operation Center (NEOC) for its vital role in strengthening Pakistan's disaster preparedness and response framework. He emphasized the importance of collaborative efforts in tackling climate-induced challenges and ensuring the safety and resilience of communities across the country. His visit reaffirmed the commitment to enhance national and provincial coordination in disaster management.
