Thunderstorm in Europe

Affected Areas

Poland, Slovakia, Czechia, Slovenia, Bosnia and Herzegovina, North Macedonia and Greece

Duration

April 24, 2025

Hazard Summary

Several European countries, including Slovakia, Bosnia and Herzegovina, North Macedonia, and Greece are under active thunderstorm advisories. Authorities have issued yellow warnings for localized thunderstorms, which may bring heavy rain, lightning, and potential disruptions to outdoor activities. Residents in these areas are advised to stay indoors during storm periods, secure loose objects, and monitor official weather updates.
