NDMA Hosts Monsoon Coordination Conference

03-09-2026

The National Disaster Management Authority (NDMA) hosted a Monsoon Coordination Conference to review preparedness measures and strengthen coordination among relevant stakeholders.

The conference focused on contingency planning, early warning dissemination, resource management, and effective emergency response to mitigate risks associated with monsoon-related hazards, including floods, urban flooding, and landslides. Participants emphasized proactive planning, timely information sharing, and collaborative efforts to protect lives and property and enhance national disaster resilience.

NDMA Internship Completion and Certificate Distribution Ceremony 04-09-2026

The NDMA organized an Internship Completion and Certificate Distribution Ceremony to recognize the contributions, learning, and achievements of its interns.

The internship programme provided participants with valuable exposure to disaster management practices, institutional operations, and disaster risk reduction initiatives. The ceremony acknowledged the interns' dedication and efforts while highlighting the importance of youth engagement, professional development, and capacity building in strengthening Pakistan's disaster management framework.

Pakistan Dispatched Humanitarian Aid to Nepal

06-09-2026

The Government of Pakistan, through the National Disaster Management Authority (NDMA), dispatched humanitarian assistance to Nepal as part of its commitment to supporting communities affected by disasters and emergencies.

The assistance reflects Pakistan's spirit of solidarity, compassion, and humanitarian cooperation with friendly nations during challenging times. Through this initiative, Pakistan reaffirmed its commitment to international collaboration, timely relief efforts, and strengthening humanitarian partnerships to support affected populations in their time of need.

NDMA Holds Meeting with EVK2CNR – Italian Research Institute

10-09-2026

The National Disaster Management Authority (NDMA) held a meeting with representatives of EVK2CNR, an Italian research institute, to discuss potential areas of collaboration in disaster risk reduction, scientific research, and climate resilience.

The meeting focused on exploring opportunities for knowledge sharing, technical cooperation, and the application of research-based solutions to strengthen disaster preparedness and risk assessment. The engagement highlighted the importance of international partnerships and scientific collaboration in enhancing Pakistan's disaster management capabilities and building a more resilient future.

CoE Course Completion and Certificate Distribution Ceremony

11-09-2026

The National Disaster Management Authority (NDMA), successfully concluded a capacity-building course at the Centre of Excellence (CoE), followed by a certificate distribution ceremony to recognize participants' achievements.

The course focused on enhancing professional knowledge, strengthening disaster management competencies, and improving preparedness and response capabilities. The ceremony highlighted the importance of continuous learning, institutional capacity building, and professional development in strengthening Pakistan's disaster risk reduction and emergency management framework.

NDMA Conducts Seminar on Urban Flood Resilience Measures

17-09-2026

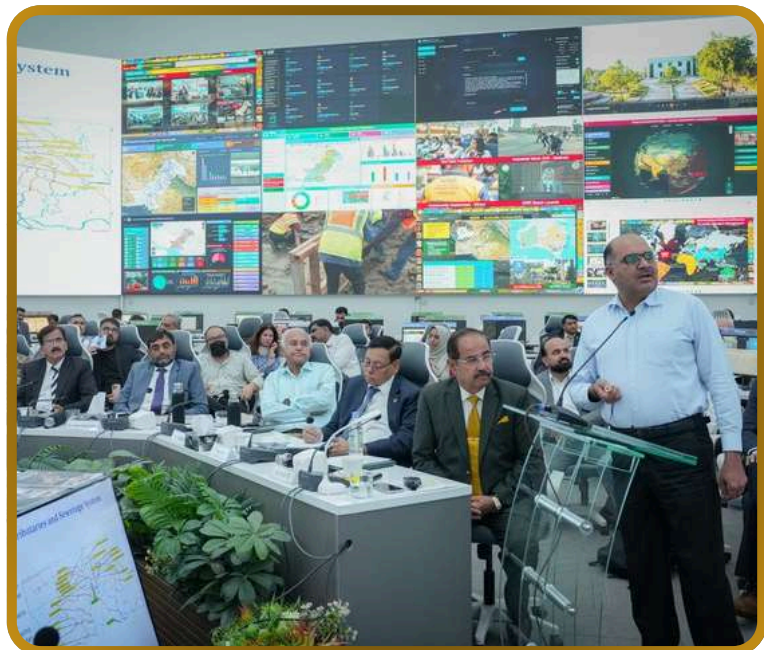

The National Disaster Management Authority (NDMA) conducted a seminar on urban flood resilience measures to enhance awareness and strengthen preparedness against urban flooding.

The seminar highlighted key challenges associated with inadequate drainage systems, rapid urbanization, and heavy rainfall, while emphasizing effective risk mitigation, improved urban planning, early warning systems, and coordinated disaster response. The initiative underscored the importance of proactive measures and collaborative efforts to reduce flood risks, protect communities, and build safer, more resilient cities across Pakistan.

Inland Study Tour of 47th MCMC, NIPA Peshawar

18-09-2026

The National Disaster Management Authority (NDMA) welcomed participants of the Inland Study Tour of the 47th Mid-Career Management Course (MCMC) from the National Institute of Public Administration (NIPA), Peshawar.

The visit provided an opportunity to brief participants on NDMA's mandate, institutional framework, disaster preparedness initiatives, and national disaster risk reduction strategies. Discussions highlighted the role of effective governance, inter-agency coordination, early warning systems, and proactive planning in strengthening disaster management and emergency response. The engagement also promoted knowledge sharing and institutional collaboration to enhance national resilience and improve disaster preparedness across Pakistan.

NDMA Conducts Industrial Simulation Exercise and CISE-8 17-08-2026

The National Disaster Management Authority (NDMA) conducted an Industrial Simulation Exercise and the 8th Comprehensive International Simulation Exercise (CISE-8) to strengthen emergency preparedness, disaster response, and inter-agency coordination.

The exercises focused on assessing response mechanisms, enhancing operational readiness, and improving coordination among relevant stakeholders during industrial emergencies and complex disaster scenarios. These initiatives emphasized the importance of practical training, effective communication, timely decision-making, and coordinated response strategies to minimize risks, protect lives and property, and strengthen Pakistan's overall disaster management capabilities.

Maldives Delegation Visits NDMA

25-09-2026

The National Disaster Management Authority (NDMA) welcomed a delegation from the Maldives to discuss opportunities for bilateral cooperation in disaster risk reduction, emergency preparedness, and climate resilience.

The visit provided a platform for knowledge sharing on disaster management strategies, early warning systems, risk assessment, and response mechanisms. Both sides highlighted the importance of strengthening institutional collaboration, exchanging technical expertise, and promoting regional cooperation to address shared disaster-related challenges and enhance resilience against natural hazards.

SCO Council of National Coordinators Meeting Held at NDMA 30-09-2026

The National Disaster Management Authority (NDMA) hosted the Shanghai Cooperation Organisation (SCO) Council of National Coordinators meeting, bringing together representatives to discuss matters of mutual interest and strengthen regional cooperation.

The engagement provided a platform for dialogue, coordination, and the exchange of perspectives on shared priorities among SCO member states. The meeting highlighted the importance of diplomatic engagement, institutional collaboration, and collective efforts to promote regional connectivity, cooperation, and sustainable development.
