NDMA Delegation Visits Jazz HQ for IoT-Enabled Weather Monitoring System Launch

03-06-2026

A delegation from the National Disaster Management Authority (NDMA) visited Jazz Headquarters, Islamabad, to attend the launch ceremony of an IoT-Enabled Weather Monitoring System.

The initiative aims to strengthen real-time weather monitoring, data-driven early warning, and disaster risk communication through the deployment of IoT-based technology and connected weather monitoring solutions.

The collaboration marks an important step towards leveraging technology, real-time data, and digital innovation to enhance preparedness and support timely decision-making for effective disaster risk management.

PGGA Training Participants Visit NDMA

09-06-2026

Participants of the PGGA Training Programme visited the National Disaster Management Authority (NDMA) as part of their training and capacity-building programme. During the visit, participants were briefed on Pakistan's disaster management framework, preparedness and response mechanisms, early warning systems, and NDMA's role in strengthening national resilience.

The visit provided participants with an opportunity to gain practical insights into disaster risk management, institutional coordination, and national preparedness efforts, while enhancing their understanding of NDMA's role in building a safer and more resilient Pakistan.

NDU Delegation Visits NDMA

10-06-2026

A delegation from the National Defence University (NDU) visited the National Disaster Management Authority (NDMA) as part of an engagement focused on strengthening understanding of Pakistan's disaster management framework and national resilience efforts.

During the visit, the delegation was briefed on NDMA's mandate, disaster preparedness and response mechanisms, early warning systems, risk communication, and coordination with relevant stakeholders. The engagement provided an opportunity to exchange perspectives on disaster risk reduction, emerging risks, and strengthening institutional capacity for effective disaster management.

Universal Service Fund (USF) Visit to NDMA

15-06-2026

A delegation from the Universal Service Fund (USF) visited the National Disaster Management Authority (NDMA) to explore opportunities for strengthening the use of digital connectivity and technology in disaster management.

During the visit, the delegation was briefed on NDMA's disaster preparedness and response mechanisms, early warning systems, risk communication, and technology-driven initiatives. The engagement also provided an opportunity to discuss the role of telecommunication infrastructure and digital solutions in enhancing emergency communication, early warnings, and resilience across vulnerable communities.

Turkish Delegation Visits NDMA to Strengthen Disaster Management Cooperation

16-06-2026

A delegation from Türkiye visited the National Disaster Management Authority (NDMA), Islamabad, to explore opportunities for enhanced cooperation in disaster risk management, preparedness, response, and resilience.

During the visit, the delegation was briefed on Pakistan's disaster management framework, early warning systems, risk communication mechanisms, and NDMA's ongoing initiatives for strengthening national resilience.

The engagement provided an opportunity to exchange experiences and discuss potential areas of technical collaboration, knowledge sharing, capacity building, and institutional cooperation between Pakistan and Türkiye in the field of disaster management.
