

Heavy Rainfall in Gaza

Valid: 1st - 2nd January 2026

Affected Areas

Rafah, Khan Yunis, Deir el-Balah, Beerli.

Hazard Types

Heavy rainfall, flooding.

Summary

Gaza and Khan Yunis are experiencing ongoing rainfall, leading to wet and potentially hazardous conditions. Localized flooding may occur in low-lying areas and streets, affecting traffic and daily activities. Residents are advised to take care when traveling and monitor local updates for any flood warnings or disruptions.
