MOST IMMEDIATE

Dated: **27 August 2025**

Subject: **FLOOD ADVISORY - RIVER INDUS**

Reference: *FFD Flood Discharge report dated 27 August 2025 (Annex-A).*

In view of the **Exceptionally High** and **Very High Flood** levels being recorded at upstream locations in **Rivers Chenab, Ravi and Sutlej**, it is anticipated that these floodwaters will ultimately contribute to rising flows in the River Indus. Therefore, PDMA Sindh is advised to take the following measures:-

- a. **Strengthened Coordination**. Establish close and continuous coordination with NDMA / NEOC, FFD Lahore, PMD and the Irrigation Department for real-time updates on water discharges and forecasted flood progression.
- b. **Protective and Anticipatory Actions:-**
 - (1) Initiate evacuation of vulnerable communities residing along the katcha areas and low-lying belts of River Indus and its tributaries.
 - (2) Identify and prepare safe evacuation routes and designate temporary shelters with provision of essential services.
 - (3) Ensure forward placement of heavy machinery and equipment (e.g., dewatering pumps, excavators and transport vehicles) at strategic locations for timely response.
- c. **Relief Stock & Logistics:-**
 - (1) Pre-position necessary relief stock including food, safe drinking water, tents, medicines and non-food items at district and tehsil levels.
 - (2) Ensure adequate availability of fuel and transport for quick mobilization during emergencies.
- d. **Strengthening Critical Infrastructure:-**
 - (1) Coordinate with Irrigation Department to monitor embankments, bunds, and canals for any breaches, seepages, or weak points. Immediate reinforcement/plugging arrangements should be in place.
 - (2) Ensure power backup and flood protection measures for critical health facilities and water supply schemes.
- e. **Community Awareness & Early Warning:-**
 - (1) Disseminate timely early warning messages to at-risk populations through local administration, mosques, media and community networks.
 - (2) Mobilize local volunteers and community-based organizations to support evacuation and relief efforts.

- f. **Search & Rescue Preparedness:-**
- (1) Coordinate with Army, Navy, PAF, Civil Defence and Rescue 1122 for readiness of boats, life jackets and SAR teams.
 - (2) Ensure medical first-aid teams are on standby to support immediate rescue operations.
- g. **Daily Situation Reporting.** Maintain regular situation reporting to NDMA / for compilation, analysis and dissemination of flood updates.
2. Forwarded for information / necessary action, please.
